CASES OF ASTITMA.

Asthma, and after employing the best medical medicines recommended, without avail or any permanent relief, I began to think there was no cure for it; but noticing an advertisement of yours in one of the New York papers, it was with the greatest reluctance I wrote you, as I then expected it would not benefit me and would be worse than necless. In this I was greatly disappointed, as I had not taken the medicine more than two weeks before I was able to do light work on the farm. Before this, I could not attend to any business, being completely prostrated, and feetly cured and my health fully re-established, the bronchial difficulties and all bad symptoms being entirely removed. All this is attributable to your unrivalled medicine, under the Divine sanction, which I trust, with me, will ever be remembered with gratitude. I cannot close this communication without expression of my heartfelt gratitude and thanks for the tunely aid you have entirely left her, and now, after a period of at No. 546 Broadway. IMPORTANT CASE OF EPILEPTIC PITS. Read the following evidence of what my treatment has done in a case of this disease, hitherto

considered incurable : DR. HAMILTON My wife was afflicted wit a fits for ten years, attended with great spinal and nervous debility. She doctored with several physicians, but all to no purpose. I read one of your simple theory of disease that I determined to try your remedies. Every one in the neighborhood cried "humbug;" but, thank God, failed to dissaade us from our purpose. As you know, we sent for some of your remedies, which, with the help of God, have completely and permanently cured her. She has not had a fit since; her back is strong, and her nervous vitality and strength have returned. As every attack she had was severer than the one previous, it is reasonable to suppose she could not have lived long but for the timely interference of your wonderful skill. To recognize you as an instrument of Divine power JOHN S. SHARP.

CONSUMPTION CAN DE CURED, Done more good than all the Physicians Mrs. Catharine Anderson, of Southampton, "Your medicines have worked wonders in my case. Previous to taking your remedies, I have doctored with three different physicians, all of whom pronounced my disease consumption, and incurable. Cod-liver oil and different kinds of symps were taken in great quantities, but to no purpose. I was confined to my bed for six months, coughed continually, and raised great quantities of matter. My throat was swelled out nearly even with my chin, and my sufferings were most intense. I had not taken your medicines more than one week before I found great relief; my cough was much loosened, and I breathed with greater freedom and ease, My appetite was better, and I felt that a new life had opened before me. I owe my very existence to your great skill and invaluable remedies."
